

TRANSFER CASE FLUID

SOLID SHEET

True Brand® TRANSFER CASE FLUID is a full synthetic gear lubricant specially formulated for manual transmissions, transaxles, transfer cases, and Haldex units. It delivers unmatched film strength for superior wear protection, exceptional resistance to mechanical shearing, excellent low-temperature fluidity, and compatibility with steel, brass, and copper alloys. Blended to SAE 75W-75 viscosity, this versatile fluid serves as an effective service fill in all vehicles specifying engine oil, ATF, or GL-4 gear oil for manual transmissions. Refer to TCF Application Guide for the full application list.

- Fully Synthetic Gear Lubricant.
- Superior Anti-Wear Protection.
- Low-Temperature Fluidity.
- Superior Fluid Stability.

Truth - Application / Directions

- Use amount specified by vehicle manufacturer.
- **DO NOT OVERFILL**

For best results, perform fluid exchange regularly according to vehicle manufacturer recommendations.

Truth - Features / Benefits

True Brand TRANSFER CASE FLUID is a fully-synthetic gear lubricant specially formulated for manual transmissions, transaxles, and transfer cases. The combination of high-quality base oils and multi-functional additive system provides superior anti-wear protection and low temperature fluidity.

- Provides superior anti-wear protection and low temperature fluidity.
- Fully synthetic gear lubricant formulated for manual transmissions, transaxles, and transfer cases.
- Designed for use in ALL vehicles specifying engine oil, ATF, or GL-4 gear oil for manual transmissions.
