

EVAPORATOR CORE CLEANER **SOLID SHEET**

True Brand® EVAPORATOR CORE CLEANER is a proprietary quaternary ammonium compound formula designed to open up restricted air flow due to contaminant build up on the evaporator core surface, advance heat transfer, and optimize A/C systems. This specialized cleaner also deodorizes the A/C system and helps improve cabin air quality.

- Removes Evaporator Core Contaminants.
- Helps Optimize A/C System Efficiency.
- Helps Remove Allergens from System.
- Cleans and Deodorizes.
- Quat Technology.
- Fast and Easy Results.

Truth - Application / Directions

- SHAKE WELL BEFORE USE.
- Place cloth towels in front of all internal A/C vents, ensuring the vents are fully open.
- With ignition & vehicle OFF, locate drain tube and place a drip pan beneath the vehicle.
- Firmly seat the application tip into the drain tube.
- Depress the cap down to apply product into the evaporator core assembly. One can treats one vehicle.
- After application, remove the application tip from the drain tube and allow product to work for approximately 5 minutes.
- Once the flow from the drain tube has diminished to a slow drip, start the vehicle, set the fan to the lowest setting, and allow the A/C system to run for 5 minutes.

THE CHOICE OF *since*
CHAMPIONS 1989

For best results, perform service annually in conjunction with cabin air filter replacement. Perform follow-up service as needed for persistent odors.

Truth - Features / Benefits
