

# PERFORMANCE PACKAGE PLUS

## SOLID SHEET

True Brand® PERFORMANCE PACKAGE PLUS is a 3-step pour-in kit that is designed to effectively clean the fuel system by dissolving harmful carbon deposits, gums, and varnishes. It also helps improve combustion, reduces exhaust emissions, lubricates injectors, valves, upper cylinders, and rings, safely removes water from the fuel system to protect against ethanol problems, and reduces friction to protect against cold-start damage and extend engine life.

- Cleans Harmful Fuel System Deposits.
- Helps Restore Power and Performance.
- Helps Restore Fuel Economy.
- Helps Reduce Emissions.
- Fights Ethanol Problems
- Safely Removes Water.
- Reduces Friction Wear and Heat Stress.
- Helps Prevent Oil Breakdown
- Reduces Oil Consumption.
- Protects Against Cold-Start Damage.

**Safe and Effective for ALL GASOLINE, DIESEL, and FLEX FUEL ENGINES!**

### Truth - Application / Directions

- SHAKE EACH BOTTLE WELL
- Add entire contents of both fuel products to fuel tank.
- During oil change, add entire contents of ENGINE MAX to crankcase prior to adding new oil. Do NOT overfill.

*For best results, perform this service once yearly.*

### Truth - Features / Benefits

True Brand PERFORMANCE PACKAGE PLUS 3-STEP KIT cleans, protects, and lubricates to help maintain fuel system performance and allow the engine to operate cleanly and more efficiently with better fuel flow, while fighting against ethanol problems, safely removing water, and reducing friction to protect against cold-start damage and extend engine life.

- Cleans harmful fuel system deposits to help restore power, performance, and fuel economy.
- Safely removes water and fights ethanol problems.
- Reduces friction wear by 50-90% to protect against cold start damage (as shown by oil analysis).
