

DIESEL OIL TREATMENT

3-STEP KIT

SOLID SHEET

True Brand® DIESEL OIL TREATMENT 3-STEP KIT is engineered to clean and protect the diesel systems by cleaning oil and fuel system deposits, fighting moisture damage and algae build-up, and protecting the engine's friction surfaces.

- Improved Fuel Economy.
- Reduced Emissions.
- Smoother Operation.
- Improved Cold-Weather Starts.
- **Safe for ALL Diesel Engines!**

Truth - Application / Directions

- Add PREMIUM DIESEL TREATMENT into fuel tank.
- Add entire bottle of OIL SYSTEM CLEANER to crankcase.
- Start vehicle and idle for five (5) minutes.
- Change oil and filter per manufacturer directions.
- Add MOTOR OIL CONDITIONER to crankcase.

For best results, use at every oil change.

Truth - Features / Benefits

True Brand DIESEL OIL TREATMENT 3-STEP KIT is a powerful combination of products designed to remove oil system deposits, protect the engine's friction surfaces, and safely remove water from the diesel fuel system. In addition, it cleans and removes gums, varnish, and carbon deposits while adding oxidation, corrosion, and algae protection.

- Provides cold weather protection and fights fuel gelling.
- Protects the system from moisture damage and algae build-up.
- Helps safely remove water from the diesel fuel system.
- Cleans fuel injectors.
- Cleans and removes gum, varnish, and oil system deposits.
- Suspends and removes abrasive wear metal and dirt particles.
- Helps improve fuel economy and extend engine life.
- Reduces exhaust smoke and knock.
- Leave-in oil conditioner protects engine friction surfaces while cleaning.
