

# Diesel RESTORE 2-STEP KIT SOLID SHEET

*“Protect Your Investment”*

True Brand® Diesel Restore 2-Step Kit increases horsepower, torque, and cetane levels while providing superior fuel system cleaning. It is formulated to remove gums, varnish, and carbon deposits, clean fuel injectors, and combustion chambers, reduce emissions, diesel knock, and exhaust smoke while adding lubrication, oxidation, and corrosion protection for diesel fuel-system components. **Safe for ALL diesel engines.**

## **Truth - Application / Directions**

### **MANUAL PROCESS:**

1. Pour entire contents of True Diesel MAX into fuel tank - one bottle treats up to 35 gallons.
2. Remove fuel-filter canister and empty 11 ounces of its contents.
3. Fill fuel-filter canister with entire contents of Diesel Restore.
4. Make sure fuel-filter canister is full, top off with diesel fuel if needed. Reinstall filter.
5. Start engine, idle/drive vehicle for 10-15 minutes.

### **MACHINE PROCESS:**

1. Pour entire contents of True Diesel MAX into fuel tank - one bottle treats up to 35 gallons.
2. Follow instructions to use Diesel Restore with Diesel Injector Machine.

## **Truth - Features / Benefits**

### **True Diesel MAX:**

True Diesel MAX is designed to increase horsepower, torque, and cetane levels while providing superior injector cleaning. Its advanced lubricants help protect against wear and extend engine life. True Diesel MAX also helps reduce exhaust smoke, diesel knock and helps fight against cold weather gel formation.

### **Diesel Restore:**

True Brand Diesel Restore is uniquely formulated to remove deposits, rapidly clean diesel fuel injectors, and combustion chambers, help improve fuel flow and spray patterns, and help reduce emissions, diesel knock, and exhaust smoke.
