

OIL CONDITIONER

3-STEP KIT

SOLID SHEET

True Brand® OIL CONDITIONER 3-STEP KIT is formulated to help reduce emissions, improve performance and fuel economy. Designed for PFI engines, this unique product uses 2-stage cleaning to clean and protect the fuel and induction system combined with a leave-in oil conditioner that protects the vehicle's engine from friction, heat, and wear.

- Helps Remove Water.
- Cleans and Lubricates.
- Protects Engine's Friction Surface.
- Safe For ALL Gasoline Piston Engines.
- Oxygen Sensor Safe.
- Induction Cleaner NOT for Rotary or Diesel Engines.

Truth - Application / Directions

- See Application Sheet for Step-By-Step Directions.

For best results, treat engine yearly or every 15,000 miles (24,000 km), whichever comes first.

Truth - Features / Benefits

True Brand FUEL SYSTEM CLEANER cleans the entire fuel system using detergents combined with surfactants while improving combustion and reducing exhaust emissions. This concentrated formula removes moisture from the fuel system and dissolves carbon deposits, gums, and varnishes. It also lubricates injectors, valves, upper cylinders, and rings while cleaning.

True Brand OIL CONDITIONER is a friction modifier and extreme pressure component that helps protect the engine's friction surfaces while cleaning. This **leave-in oil treatment** is designed to stay in with the vehicles regular oil for the full oil change interval.

True Brand INDUCTION CLEANER helps extend engine life through 2-stage cleaning. Stage 1: Light volatiles help remove gums and varnish from the induction system. Stage 2: Thermally stable residual detergents remain to soften and remove hardened carbon deposits for a thorough, long-lasting clean.
