

EMG CLEAN & PROTECT

3-STEP KIT

SOLID SHEET

True Brand® EMG CLEAN & PROTECT is a true vehicle maintenance and protection kit. It delivers total engine and fuel system cleaning and protection to ensure long-term reliability and peak performance.

Actively removes harmful oil system deposits from internal components, including piston rings and ring lands, while preventing future deposit buildup.

Provides stronger anti-wear protection than industry standards to shield against wear damage and help extend engine life with friction modifiers that permanently bond with internal metal friction surfaces to dramatically reduce friction wear and heat stress while increasing compression to help restore power, performance, and fuel economy.

Concentrated PEA formula cleans harmful intake valve, injector, and combustion chamber deposits while safely removing water and combating ethanol-related issues.

Truth - Application / Directions

- SHAKE WELL before use.
- Drain old oil and replace oil filter per vehicle specifications. Replace drain plug.
- Add entire contents of ENGINE MAX to crankcase.
- Add entire contents of EMG to crankcase.
- Add new engine oil to crankcase. DO NOT OVERFILL.
- Add entire contents of UPGRADE FUEL SYSTEM CLEANER to fuel tank.

For best results, use at every oil change.

Truth - Features / Benefits

- Actively removes harmful oil system deposits and helps prevent future deposit formation.
- Shields against wear damage.
- Increases compression.
- Helps prevent oil breakdown and reduces oil consumption.
- Protects against cold-start damage.
- Concentrated PEA formula cleans harmful intake valve, injector, and combustion chamber deposits.
- Helps restore power and performance, and fuel economy.
- Safely removes water and protects against ethanol problems.
- Helps extend engine life.
