

ATF CLEAN & PROTECT

2-STEP KIT

SOLID SHEET

True Brand® ATF CLEANER cleans and suspends harmful varnish, sludge, wear metals, and other contaminants in the transmission system to help best prepare it for the addition of new fluid.

True Brand ATF TREATMENT bonds to the transmission metal friction surfaces to reduce friction and heat, which in turn helps prevent wear for all working components.

Truth - Application / Directions

ATF Cleaner:

- Add entire contents to transmission through the dipstick tube, ATF machine additive injection system, or in-line additive canister.
- With engine running and parking brake set, put your foot on brake pedal.
- Slowly shift through all transmission gears for 3-5 minutes.
- Put transmission in park position, shut engine off.
- Attach ATF Exchanger and use as directed.
- Ensure all ATF CLEANER is removed before normal operation.
- **DO NOT OVERFILL.**

ATF Treatment:

- **SHAKE WELL.** Add entire contents to transmission through the dipstick tube, ATF machine additive injection system, or in-line additive canister. **DO NOT OVERFILL.**

For best results, perform transmission service every 30,000 miles (48,000 km) or as recommended by manufacturer.

Truth - Features / Benefits

Save your customers money and protect their continuously variable transmission with True Brand ATF CLEAN & PROTECT 2-STEP KIT. Regular preventative maintenance may save on major repair costs and reduce the possibility of a transmission replacement.

- Cleans and protects transmission & helps extend transmission life.
- Suitable for use in most ATF applications.
- Works against oxidation and fluid breakdown.
- Not suitable for Continuously Variable Transmissions (CVT).
