

COOLING SYSTEM TREATMENT

SOLID SHEET

True Brand® COOLING SYSTEM TREATMENT contains a unique corrosion and rust inhibitor technology that enhances protection of cooling system metals such as iron, aluminum, copper, and steel. Also contains anti-foaming agents and provides additional protection to water pumps. May also be used between coolant exchange services to replace depleted additives and provide additional rust and corrosion protection.

- Increases Rust and Corrosion Protection.
- Protects Water Pump and Metal Parts.
- Safe for ALL Types/Colors of Coolant-Antifreeze.
- Will NOT Void Vehicle Manufacturer's Warranty.

Truth - Application / Directions

- **CAUTION:** DO NOT OPEN THE COOLING SYSTEM WHEN THE ENGINE IS HOT.
- Follow coolant exchange equipment manufacturer's procedures to perform coolant exchange.
- Add entire contents of container to cooling system.
- If not performing a coolant exchange, COOLING SYSTEM TREATMENT may also be added directly to used coolant to replace depleted additives and provide additional rust and corrosion protection.

For best results, use in conjunction with True Brand COOLING SYSTEM CLEANER every 30,000 miles.

Truth - Features / Benefits

Save your customers money and protect their cooling system with True Brand COOLING SYSTEM TREATMENT. Regular preventative maintenance may save on major repair costs and reduce the possibility of a catastrophic breakdown.

- Superior corrosion and rust inhibitor technology.
- Reduces potential damage
- Extended corrosion damage protection.
- Protects water pump and reduces potential damage to pump surfaces.
