

HEAVY-DUTY SYNTHETIC SAE 75W-90 GEAR OIL SOLID SHEET

True Brand® SAE 75W-90 GEAR OIL is recommended for use in differentials, manual transmissions and other gear applications requiring any of the following specifications: API GL-5, J2360, MT-1, MIL-PRF-2105E, Dana SHAES 234 (Formerly Eaton PS-037), Mack GO-J, or other GL-5 based specifications from vehicle manufacturers, including Ford, GM and Chrysler. Can also be used as an upgrade to SAE 80W-90 and SAE 85W-90 and can be used in axles for better cold weather performance where an API GL-4 lubricant is recommended. Can be used in conventional differentials in addition to limited slip, avoiding the need for a supplement or application errors.

Truth - Application / Directions

- Follow vehicle manufacturer's recommendations for use of product. Designed to be used in conjunction with TRUE BRAND drive-line service and tools. **Note:** While this product contains an proprietary amount of limited-slip friction modifiers, limited-slip differentials require the additional use of True Brand Limited-Slip Concentrate.
- DO NOT MIX WITH OTHER PRODUCTS AS THEY MAY NOT BE COMPATIBLE AND COULD RESULT IN UNSATISFACTORY PERFORMANCE.

For best results, change Gear Oil every 15,000 miles (24,000 km), or as recommended by vehicle manufacturer.

Truth - Features / Benefits

True Brand SAE 75W-90 GEAR OIL provides superior lubrication and protection from wear, pitting and corrosion, improves performance in extreme temperatures, reduces maintenance, reduces operating temperatures, increases drive-line efficiency and reduces gear noise. Contains special additives to reduce chattering in limited-slip differentials.

- Reduce cost of repairs.
- Reduce gear noise.
- Improve gas mileage.
- Reduce operating temperature.
