

SQUEAL STOPPER

SOLID SHEET

True Brand® SQUEAL STOPPER is specially formulated to dampen the vibrations that cause brake noise. Eliminates whining, squeaking, or squealing brakes. When applied, a water-resistant, high-temperature film is formed that dampens vibrations and absorbs noise while quieting squeaks & squeals.

- Water-Resistant, High-Temperature Film.
- Stops Squeak, Squeal, and Chatter.
- Reduces Sticking Between Pad and Rotor.
- Safe and Effective.

Truth - Application / Directions

- **SHAKE WELL.**
- Clean brake pad surface with brake cleaner. If glazed, use sandpaper to remove glaze.
- Apply medium coating to the entire pad surface.
- Allow 15 minutes to completely dry before reassembly.
- Test brakes. NOTE: It is normal for brakes to GRAB/ GROAN during the first 2-3 stops.

For best results, use on new brake pads prior to installation.

Truth - Features / Benefits

One of the most frequent complaints from vehicle owners is brake noise. True Brand SQUEAL STOPPER is a safe and effective product for eliminating or preventing brake noise by treating the brake pad with ingredients that reduce sticking between the pad and rotor.

- Stop brake squeals and squeaks
- High temperature red film
- For use on backing plates, brake pad contact points, non-shimmed disc pads, and disc brake pads.
